Abhijit Gadakh

Full Stack Web Developer

Professional Summary

Dynamic full-stack developer specializing in the MERN stack, with extensive experience in Node.js, Express.js, React.js, and MongoDB. I am passionate about utilizing Generative AI to create innovative solutions. My strong problem-solving and collaboration skills enable me to develop efficient, scalable web applications that meet client needs.

Experience

Paexskin Solution | Intern Developer — April 2023 - March 2024
- Engaged in Scrum meetings and Agile practices to ensure timely, high-quality outcomes
